PROFILE SUMMARY

With a strong background in Supply Chain, eCommerce Operations, Software Automation, Backend Development, Cloud Development, Data Engineering, and Full Stack Development, I build scalable, data-driven solutions that enable smarter business decisions and operational efficiency. My expertise spans Python, PySpark, SQL, FastAPI, ETL/ELT pipelines, Data Migration, Data Validation, Data Modelling, Supply Chain & Capacity Planning, Databricks, Snowflake, Azure, GCP, Synapse, MySQL, PostgreSQL, Streamlit, Git, and Azure DevOps. I have experience developing cloud-based data platforms, automated analytics solutions, API integrations, performance-monitoring systems, and operational dashboards across eCommerce, CPG, Supply Chain, and enterprise data environments. I am passionate about leveraging data engineering, cloud technologies, automation, and AI/LLM solutions to solve real-world business problems, optimize processes, and create scalable technology solution

SKILL

AI:
Chat-GPT, Amazon-Q, copilot
Data Science & Analytics: Data Analysis, Predictive, Descriptive, Prescriptive Modelling
Data Engineering : Databricks, Snowflake, ETL Pipelines, Data Architecture
Programming Languages: Python, PHP , R, HTML5, CSS3, JavaScript (JS)
Frameworks & Libraries: Django, Flask, FastAPI, Streamline, Bootstrap, React
Databases: SQL, MySQL, PostgreSQL, SQLite, NoSQL (MongoDB, Redis)
Cloud Platforms: AWS, Microsoft Azure, Google Cloud Platform (GCP)
Cloud Services & Tools: AWS (EC2, Lambda, S3, VPC), Azure (Virtual Machines, Blob Storage), GCP (Compute Engine/Virtual Machines, VPC), Databricks, Snowflake
DevOps & CI/CD: Git, Azure DevOps, Docker, Kubernetes
Tools & Utilities: Postman, MS Office Suite
Supply Chain Analytics,Supply Chain Management
Capacity Planning,Inventory Planning
Inventory Optimization,Demand Forecasting
eCommerce Operations,Marketplace Operations
Warehouse Operations,Order Fulfilment,Logistics Operations,3PL Management,SJIT Operations,Claims & SPF Management,Performance Monitoring
Data Analytics, Business Intelligence, Performance Analytics, Operational Analytics, Dashboard Development
Streamline, Process Automation, Reporting Automation Root Cause Analysis, KPI Monitoring

EDUCATION

- **B.Tech (Computer Science)**, J. B Institute Of Technology, Dehradun, 2015- 2019
- **Intermediate** , Pine Wood School Amroha, Uttar Pradesh, 2013- 2015
- **High School** , Pine Wood School Amroha, Uttar Pradesh, 2011- 2013

CERTIFICATIONS

1. Microsoft Azure Essentials by Microsoft Press, LinkedIn (Apr 2026)
2. Google Cloud Digital Leader, Udemy, May 2025
3. AWS Cloud Technical Essentials, AWS, June 2022
4. Foundations of Project Management, June 2022
5. Financial Accounting Foundations, LinkedIn (May 2026)
6. Key Account Management, LinkedIn (Apr 2026)
7. Python in Excel for Financial Professionals, LinkedIn(Apr 2026)
8. Getting Started with Python for Finance, LinkedIn (Apr 2026)
9. Root Cause Analysis: Systemic Problem Prevention, LinkedIn (APR 2026)
10. Excel Essential Training (Microsoft 365), Linkedin (APR 2026)
11. Django Essential Training, LinkedIn
12. Complete guide to GitHub Copilot for developers: Introduction, LinkedIn

PROJECTS

- RPPS (RESOURCE PROJECT PLANNING SOFTWARE)
- Finance Calculator
- Flask-URL-Shorter-App
- Razorpay_payment_Integration
- pdf_text_extractor
- Document Generation Tools

EXPERIENCE

1. **Tredence, Gurugram** Jul 2023-Nov 2025

Senior Software Engineer | Data Consultant

- Managed end-to-end marketplace operations across Myntra, Flipkart, Amazon and other eCommerce channels, ensuring SLA and fulfilment adherence.
- Led SJIT planning, inventory allocation, dispatch readiness, RO closure and stock-transfer execution.
- Managed warehouse and 3PL operations, monitoring inventory accuracy, productivity, returns and operational TAT.
- Designed data-driven solutions for supply-chain, capacity planning, inventory optimisation and operational performance monitoring.
- Developed data migration, validation and modelling frameworks using Python, PySpark, SQL, Snowflake and Databricks.
- Built automated data pipelines, dashboards and reporting solutions for marketplace, warehouse, claims and business performance.
- Managed SPF/claims governance through data validation, evidence tracking, root-cause analysis and recovery monitoring.
- Integrated operational data using APIs, Azure, Synapse and cloud-based platforms to improve data visibility and decision-making.
- Coordinated with marketplace, warehouse, logistics, category, finance, technology and external stakeholders to resolve operational issues.
- Drove process automation, data quality, operational analytics and continuous improvement across eCommerce and supply-chain processes.

2. **GroupM, Gurugram** Jun 2021 - Jun 2023

Software Engineer

Project : Synapse

Skills Used: Python, Django, Azure, Sql, Sqlite, API Development, REST API, Git, Windows, Linux

Roles & Responsibilities:

1. Gather and collect data from various sources, including databases, APIs, and external sources.
2. Apply statistical methods and techniques to analyse and interpret data.
3. Use data visualisation tools and techniques to present findings in a clear and meaningful way.
4. Developed and programmed software solutions using Python, Django, and SQL Server.
5. Designed and architected new features from scratch, ensuring scalability and performance.
6. Created reports, dashboards, and visualisations to communicate analytical findings and recommendations.
7. Refactored and documented code to meet coding standards and maintainability.
8. Identified opportunities to enhance applications, made recommendations, and implemented systems accordingly.
9. Led and managed a team of junior developers, providing guidance and support.
10. Managed projects using Scrum methodology, including code review, testing, and deployment.
11. Conducted testing and debugging of code, including the creation of automated unit tests when necessary.

3 . **Freelancing, Noida, Gurugram** Sep 2019 - May 2021

Contract Software Developer

Projects : Chatbot Backend Design, REST API Design, SEO Addition, Bill Payment Microservice, WordPress Website Design

Skills Used: Python, Django, Fast Api, Wordpress, Flask, Was, Azure, Sql, MySQL, DynamoDB, AWS LAMBDA, EC2, Lex

Bot, Windows, Linux

Project Link: <https://www.kramate.com/>

Employment History

Worked as a Software Developer contractually for various organisations across different project durations.

1. Square Yards Pvt Ltd (Feb 2021 - May 2021)
2. D2C Consultancy (Sep 2020 - Dec 2020)
3. Kramate Pvt LTD (Feb 2020 -April 2020)
4. Shine Group PVT LTD (April 2019- January 2020)
5. BI INFOTECH PVT Ltd (April 2018 - June 2019)

INTERNSHIP

- **IOT & Robotics (Inspireleap), 2026, online**
- **Webdevelopment (Itenic), 2018-2019, Noida, up**
